

Bernick's Beverages & Vending – Waite Park facility

Bernick's Energy Improvements:

- ❑ Replacing 500 metal halide bulbs with high-bay T8s in its warehouse, saving more than \$80,000 a year on lighting costs
- ❑ Installing LED lights and Vending Miser sensors in its vending machines
- ❑ Using opportunity chargers to control the energy used to charge forklift batteries, saving \$62 per month per forklift
