

A Lot Of Hot Air

Heating your building with solar thermal

Join local contractor and sun catcher John Duevel

- ☀️ Learn how to build a solar hot air collector.
- ☀️ Find out what materials make an efficient panel
- ☀️ Assemble a precut solar panel.

John will discuss past solar projects he has worked on and share what his experience has taught him about making efficient solar collectors.

When: Tuesday, Sept. 14th, 7:00 pm

Where: New London Senior Center
Corner of 2nd Ave SW and Norwood St.
