

2020 Minnesota Heat Pump Rebates

		CIP efficiency program rebates			Energy control program rebates			
Heat Pump	Configuration	Qualifications			Rebate	Qualifications	Rebate	
Air Source Heat Pump (ASHP)	Ducted or Ductless	Model labeled Energy Star; or	SEER ≥ 15, and HSPF ≥ 8.5, and EER ≥ 12.5; and	Not installed to replace natural gas heating.	\$400 per ton	No Energy Control rebate available.		
Cold climate heat pump (CCHP)	Ductless mini split system	Model labeled Energy Star with HSPF of ≥ 10; or	HSPF ≥ 10 and SEER ≥ 15; and		\$700 per ton	Installed on a qualified rate: Dual Fuel, Deferred Load, or RDC	HSPF ≥ 10 (no SEER req.)	\$500 per ton
	Ducted system	Model labeled Energy Star with HSPF of ≥ 9; or	HSPF ≥ 9 and SEER ≥ 15; and		\$900 per ton		HSPF ≥ 9 (no SEER req.)	\$700 per ton
Geothermal heat pump	Water to air closed loop		COP ≥ 4.1; and EER ≥ 21.1; and		\$1000 per ton	No Energy Control rebate available.		
	Water to air open loop		COP ≥ 3.6; and EER ≥ 17.1; and					
	Water to water open loop		COP ≥ 3.5; and EER ≥ 20.1; and					
	Water to water closed loop		COP ≥ 3.1; and EER ≥ 16.1; and					

Limit one rebate per installation.
